

## Supplement to 2014 Annual Report November 5, 2015

To provide more current financial information to our Stockholders and Employees, management is submitting the Company's unaudited summary financial operating information for the first nine months of 2015 and comparable figures for the same period in 2014. These comparative results reflect improved net income for the nine months of 2015 versus 2014.

During the third quarter of 2015, we experienced numerous mechanical problems which lowered our production output. The first unit press platen underpinnings had rotted, requiring replacement of the bottom press platen. Production of our flagship product, 1/2" 440 SoundBarrier, could only be made on the second unit press, putting us in a larger than normal backorder position. A plate was obtained and installed during the first week of November. Also during this period, we had numerous claims for defective product caused by the intermittent interruption of our biocide chemical feed which resulted in a large volume recall of finished product and the settlement of a number of warranty claims. As of this writing, most claims have been resolved or provided for.

Net sales for the three months ended September 30, 2015 were \$4,805,367, compared to \$4,726,368 for 2014, an increase of \$78,999.
